📍 Bahrain, Muharraq

Profile

A recent Computer Science graduate from the University of Bahrain with an excellent academic record, I offer a deep understanding of software development principles and a sharp eye for detail. My experience across diverse projects has honed my skills in coding, debugging, and systems integration. Driven by curiosity and a commitment to continuous learning, I am eager to tackle complex challenges and contribute innovative solutions in a forward-thinking tech environment.

Education

B.Sc. Computer Science (University of Bahrain)

Sep 2020 – Aug 2024

GPA 3.52 (Excellent)

Professional Experience

Industrial Trinee, KeyPoint Consultant

Jul 2024 – Sep 2024

During my internship at KeyPoint, I collaborated with Tamkeen to document the integration of their two systems. My responsibilities included creating detailed documentation for data mapping, reconciliation, and validation processes, ensuring accurate data flow and comprehensive records in the Functional Integration Document.

Projects

UOB Exams Managment System

This project streamlines exam management at the University of Bahrain using Laravel, providing comprehensive scheduling features such as date, time, and room selection for each exam, along with additional functionalities tailored to the university's specific requirements.

Halls Management System

Developed a hall reservation system using Ionic/Angular, enabling efficient booking and management of halls with user-friendly interfaces and real-time availability tracking.

Soft Skills

Critical thinking, collaboration, adaptability, communication, time management, problem-solving, leadership, and continuous improvement.

Technical Skills

Laravel, Ionic, Angular, PHP, Java, Javascript, HTML, CSS, SQL
